Office hours: By email appointment.  
Office hours: By email appointment. (Kenny 3010)

Course description: This course is designed to introduce students to topics and issues relating to the History of Psychology. The course emphasizes learning how to think, discuss, and write about the topics in a critical and coherent manner.

Course materials: Students are responsible for obtaining the course materials. Unless otherwise stated, the course materials are available as free podcasts from iTunes U: Psychology Professor Todd Daniel, "The Story of Psychology" and "Great Ideas in Psychology", and Christopher D. Green "This Week in the History of Psychology" (TWITHOP).

Course policies: Course materials and items discussed in class will be on the exam. This class operates in a seminar format. Come prepared to discuss the topics. No computers (e.g., laptops, tablets, phones) are allowed. The only exception is during the lecture-section of the class.

Evaluation: Evaluations will be based on weekly quizzes, an exam, and class participation.

1. Weekly Quizzes (30%)

At the start of every class (except for first class and the exam day) you will receive a quiz lasting approximately 5 minutes. The quiz will concern one or more of the topics assigned for that day. Each quiz is worth 3% of your final grade. Missed quizzes will be assigned a grade of 0. There will be no excused absences for quizzes. There will be no makeup quizzes.

2. Exam (50%)

The exam (Week 10) will consist of short answer questions and one essay question. It will cover course materials and items discussed in class up to the end of Week 9. There will be no make up exam in this course. This means that if you miss an exam you will simply receive a zero. The only exceptions to this are validated medical excuses. Such excuses must be in the form of a written note from your doctor or from student health, attesting to the fact that on the day of the exam you were too ill to be expected to function reasonably. Please note that although the
Student Health Service will provide such validations for Final exams, they will not provide these for exams during term. Therefore in the event of a missed exam your medical excuse must be obtained from a private physician. If you should have a personal or psychological trauma and miss an examination, a written letter of explanation from your psychiatrist, psychologist, or student counselor must accompany such an excuse. A letter from the attending physician or clergy must validate exams missed due to a death in the family. In the absence of such written verification you will not be excused. All medical excuses must be personally presented to me as soon as you are able to return to class for a make up to be scheduled.

3. Class Participation (20%)

Based on quality, not quantity. And if you don’t participate, your grade will reflect that.

Psychology Department’s Position on Academic Misconduct

Cheating, plagiarism, and other forms of academic misconduct are very serious concerns of the University. In all cases of suspected academic misconduct, the parties involved will be pursued to the fullest extent dictated by the guidelines of the University. Strong evidence of cheating or plagiarism may result in a zero credit for the work in question. According to the University Act (section 61), the President of UBC has the right to impose harsher penalties including (but not limited to) a failing grade for the course, suspension from the University, cancellation of scholarships, or a notation added to a student’s transcript.

All graded work in this course, unless otherwise specified, is to be original work done independently by individuals. If you have any questions as to whether or not what you are doing is even a borderline case of academic misconduct, please consult your instructor. For details on pertinent University policies and procedures, please see http://www.library.ubc.ca/clc/airc.html.

Further information about academic regulations, course withdrawal dates and credits can be found in the University Calendar. You are encouraged to read this material. If you run into trouble and need information about studying, preparing for exams, note taking or time management, free workshops and advice are available from the Student Resources Centre, which can be reached through the School and College Liaison Office at 822-4319.
