COURSE DESCRIPTION

This course introduces students to fundamental concepts and theories within sport psychology. The goal of this course is to provide students with a broad overview of major constructs of interest, with a special focus on applied practice within sport and exercise settings.

AIMS & OUTCOMES

The overarching aim of this course is for students to develop an understanding of key areas within sport psychology. Sport psychology researchers and practitioners are interested in human cognition, emotion, and behaviour within physical activity and performance contexts. Knowledge of sport and exercise psychology theory, constructs, and relevant applications will assist students in understanding underlying psychological processes as related to sport performance and participation. Such frameworks are relevant to many health-related professional practices that seek to maximize performance and change behaviour (e.g., psychologists, performance consultants, kinesiologists, physiotherapists, physical education instructors, coaches, physicians, dieticians). Students interested in pursuing a career in sport and exercise psychology can expand their understanding of the discipline by taking courses in psychology, counselling psychology, kinesiology, and by pursuing graduate education.

LEARNING OBJECTIVES

By the end of this course, students will be able to:

- Describe and apply sport psychology theories and constructs and discuss their relevance to physical activity and performance contexts.
- Describe and apply the reciprocal relationships between social, environmental, and psychological factors on sport performance and participation.
- Critically assess sport psychology theory, constructs, and knowledge application.

PREREQUISITES

Either (a) PSYC 100 or (b) two of PSYC 101, PSYC 102, PSYC 205, PSYC 207, PSYC 208, PSYC 216, and PSYC 217, PSYC 277. Strongly recommended: PSYC 216 or one of PSYC 217 or 277. Please note that credit will be granted for only one of PSYC 311 and KIN 150 and 231.

WITHDRAWAL DATES

Last day to withdraw from this course without W standing is September 19, 2022. The last day to withdraw with a W standing (course cannot be dropped after this date) is October 28, 2022.

COURSE MATERIALS

PSYC 311 has a required textbook and course website as follows:

1. **Course Text:** Crocker, P. R. E. (2021). *Sport and exercise psychology: A Canadian perspective* (4th edition). Toronto, ON: Pearson Education.

This text is now available as an e-textbook and can be accessed here:

<https://console.pearson.com/enrollment/eafs9b>

If the e-textbook is available for purchase from online sources other than Pearson the instructor supports you selecting the source that you deem appropriate (as long as the content is the same as the one published by Pearson). The instructor has not vetted sources other than Pearson so please do your due diligence. You may use the 3rd edition at your own risk. The Instructor does not know how substantive the changes are between the 3rd to 4th editions so you may wish to investigate this further.

2. **Course Website.** Course content including lecture notes, Zoom links, marking rubrics, quizzes, information about the course, and important reminders can be accessed through the Canvas course website at: <http://canvas.ubc.ca>.

CLASS FORMAT

PSYC 311 (901) is a 3-credit course provided over winter semester 1 (September-December 2022) with content delivered in two formats:

1. **Asynchronous:** the online independent self-paced activities for this course will include textbook readings, written assignments, and quizzes.
2. **Synchronous:** the synchronous component of this course will include in-person classes held during scheduled class times (Wednesdays between 6:00PM to 8:30PM). Classes will be held in Hennings (HENN) Room 200. Students are strongly encouraged to attend all classes and for the following primary reasons: (1) Course content will be presented (e.g., live lectures), assignments will be discussed (quizzes, written assignments), and interactive activities will occur; (2) Classes will not be recorded due to student privacy concerns. Recording these meetings are strictly prohibited.

WEEKLY SCHEDULE

Construct (Chapter #)	Date	Action Step
Introduction to PSYC 311 – Psychology of Sport	September 7	<ul style="list-style-type: none">• Attend class
Personality (Chapter 2)	September 14	<ul style="list-style-type: none">• Pre-read Chapter 2• Attend class
Motivation & Behaviour Change (Chapter 3)	September 21	<ul style="list-style-type: none">• Pre-read Chapter 3• Attend class• Complete Quiz 1 (Chapter 2)
Stress, Emotion, Coping (Chapter 4)	September 28	<ul style="list-style-type: none">• Pre-read Chapter 4• Attend class• Complete Quiz 2 (Chapter 3)
Anxiety (Chapter 5)	October 5	<ul style="list-style-type: none">• Pre-read Chapter 5• Attend class• Complete Quiz 3 (Chapter 4)
Aggression and Moral Behaviour (Chapter 6)	October 12	<ul style="list-style-type: none">• Pre-read Chapter 6• Attend class• Complete Quiz 4 (Chapter 5)
Leadership (Chapter 8)	October 19	<ul style="list-style-type: none">• Pre-read Chapter 8• Attend class• Complete Quiz 5 (Chapter 6)
Group Cohesion (Chapter 9)	October 26	<ul style="list-style-type: none">• Pre-read Chapter 9• Attend class• Complete Quiz 6 (Chapter 8)
Youth Involvement and Positive Development (Chapter 10)	November 2	<ul style="list-style-type: none">• Pre-read Chapter 10• Attend class• Complete Quiz 7 (Chapter 9)

Coaching Psychology (Chapter 11)	November 16	<ul style="list-style-type: none"> • Pre-read Chapter 11 • Attend class • Complete Quiz 8 (Chapter 10)
Aging and Involvement in Sport and Physical Activity (Chapter 12)	November 23	<ul style="list-style-type: none"> • Pre-read Chapter 12 • Attend class • Complete Quiz 9 (Chapter 11)
Physical Activity and Mental Health (Chapter 13)	November 30	<ul style="list-style-type: none"> • Pre-read Chapter 13 • Attend class • Complete Quiz 10 (Chapter 12)
Review of class material	December 7	<ul style="list-style-type: none"> • Attend class • Complete Quiz 11 (Chapter 13)

COURSE ASSESSMENT AND GRADING

Your grade in this course will be made up of quizzes, assignments, and an engagement portfolio. Details all assignments will be discussed in class. Here is an overview of each:

Online Quizzes		40%
Format	Quizzes will be completed through the course Canvas website. All quizzes will be accessible on the left-hand menu under “Quizzes”.	
Details	<p>Students are required to complete ten (10) quizzes. There are eleven (11) opportunities to take the weekly quizzes. Students are only required to complete ten (10) of the eleven (11) quizzes. Alternatively, students can complete all eleven (11) quizzes and the lowest mark will not be counted.</p> <p>Each quiz consists of 20 multiple choice or true and false questions which will need to be answered in 30 minutes. All quizzes are open book. Students will have between 6:30AM to 6:30PM to complete the quizzes.</p>	
Weighting	40% in total (4% for each of the ten [10] quizzes).	
Learning Outcomes	To identify and apply relevant sport and exercise psychology theoretical perspectives and constructs.	

Assignment 1 - Sport Story + One Construct ('SS_1C Assignment')		15%
Format	Submit a PDF document in APA format, uploaded to Canvas.	
Details	Students submit a paper outlining a sport story they have selected, and one (1) psychology of sport construct (topics) to be applied. For the construct, three (3) peer-reviewed journal article published in the last ten (10) years must be referenced. The proposal should not exceed 700 words. The rubric is uploaded to the course Canvas page. All questions regarding this assignment are to be directed to your TA.	
Due Date	Thursday, October 13th	
Learning Outcomes	Describe and apply psychology of sport theories and constructs and discuss their relevance in the context of sport scenarios.	

Assignment 2 - Sport Story + Three Constructs ('SS_3C Assignment')		40%
Format	Submit a PDF document in APA format, uploaded to Canvas.	
Details	Students submit a final report applying three (3) psychology of sport constructs (topics) to their sport story, including no less than six (6) peer-reviewed journal articles published in the last ten (10) years. The proposal should not exceed 2100 words. The rubric is uploaded to the course Canvas page. All questions regarding this assignment are to be directed to your TA.	
Due Date	Monday, December 12th	
Learning Outcomes	Apply psychology of sport theories and constructs and discuss their relevance in the context of sport scenarios. Critically assess and analyze the relationship between social, environment, and psychological factors.	

Engagement Portfolio		5%
Format	Submit a PDF document, uploaded to the course Canvas website.	
Details	Submit a “portfolio” of their personal two best examples of engagement, and one best example of a fellow classmate’s engagement. These examples can come from a variety of sources, such as class discussions, attendance, support of classmates, attending office hours, class panel, topic reflexivity, etc. Submissions should not exceed 300 words.	
Due Date	Monday, December 5th	
Learning Outcomes	Put forward a convincing argument of how you engaged in the course.	

Note: The schedule outlined in the syllabus may be subject to change, as needed, to best realize the educational goals of the course. Revisions will be announced in class and posted to Canvas.

GRADING

In order to reduce grade inflation and maintain equity across course sections, all psychology courses are required to comply with departmental norms for grade distributions. According to these adjusted norms, the average grade in a 300-level class is 75% for an excellent class, 73% for an average class, 71% for a weak class, and with a standard deviation of 13%.

Scaling may be used in order to comply with these norms; grades may be scaled up or down as necessary by us or the department. Grades are not official until they appear on your transcript. You will receive both a percent and a letter grade for this course. At UBC, your course percentage is converted to a letter grade accordingly:

A+	90-100%	A	85-89%	A-	80-84%
B+	76-79%	B	72-75%	B-	68-79%
C+	64-67%	C	60-63%	C-	55-59%
D	50-54%	F	0-49%		

Because you are earning a degree at a highly reputable post-secondary institution, the criteria for success are high. The Faculty of Arts offers the following guidelines that broadly characterize the kind of work that is generally associated with the particular grade ranges. These characteristics help put the Psychology Department grading policies into perspective. Please note that adequate performance is in the C range.

A Range: Exceptional Performance. Strong evidence of original thinking; good organization in written work; capacity to analyze (i.e., break ideas down) and to synthesize (i.e., bring different ideas together in a coherent way); superior grasp of subject matter with sound critical evaluations; evidence of extensive knowledge base.

B Range: Competent Performance. Evidence of grasp of subject matter; some evidence of critical capacity and analytic ability; reasonable understanding of relevant issues; evidence of familiarity with the literature.

C-D Range: Adequate Performance. Understanding of the subject matter; ability to develop solutions to simple problems in the material; acceptable but uninspired work; not seriously faulty but lacking style and vigor.

F Range: Inadequate Performance. Little or no evidence of understanding of the subject matter; weakness in critical and analytical skills; limited or irrelevant use of the literature.

COVID SAFETY

For our in-person meetings in this class, it is important that all of us feel as comfortable as possible engaging in class activities while sharing an indoor space. Non-medical masks that cover our noses and mouths are a primary tool to make it harder for COVID-19 to find a new host. Please don't hesitate to wear a non-medical mask during our class meetings, for your own protection, and the safety and comfort of everyone else in the class. If you have not yet had a chance to get vaccinated against COVID-19, vaccines are available to you, free (see <https://covid19.ubc.ca/> for more information). The higher the rate of vaccination in our community overall, the lower the chance of spreading this virus. You are an important part of the UBC community. Please arrange to get vaccinated if you have not already done so.

If you're sick, it's important that you stay home – no matter what you think you may be sick with (e.g., cold, flu, other). If you think you might have COVID symptoms and/or have tested positive for COVID and/or are required to quarantine: You can do a self-assessment for COVID symptoms here: <https://bc.thrive.health/covid19/en>

Do not come to class if you are sick, have COVID symptoms, have recently tested positive for COVID, or are required to quarantine. This precaution will help reduce risk and keep everyone safer. In this class, the marking scheme is intended to provide flexibility so that you can prioritize your health and still be able to succeed (e.g., weekly quizzes).

If you do miss class because of illness:

- Make a connection early in the term to another student or a group of students in the class. You can help each other by sharing notes. If you don't yet know anyone in the class, post on the discussion forum to connect with other students.
- Consult the class resources on Canvas. We will post lecture notes there each week.
- Attend office hours (they're online, so you can join from anywhere).
- If you are concerned that you will need to miss a particular key activity due to illness, contact us to discuss.

ATTENDANCE AND CENTRE FOR ACCESSIBILITY

In this course, material that is taught in lectures may be different from or supplement the text material. Moreover, lecture slides are designed to provide a framework for the lecture and any discussions--thus, not everything in the lecture is in the slides.

During your time in this course, if you encounter medical, emotional, or other personal problems that affect your attendance or academic performance, please notify us as soon as possible, as well as your Faculty Academic Advising Office. Please refer to the UBC Calendar for a discussion of academic concession.

The University accommodates students with disabilities who have registered with the Centre for Accessibility (see below). The University also accommodates students whose religious obligations conflict with attendance or scheduled exams. Please let us know in advance, preferably in the first few weeks of class, if you will require any accommodation on these grounds. Other absences (e.g., varsity athletics, family obligations or similar) are not part of University policy and you should not assume they will be accommodated. Please discuss this with me before the withdrawal dates (see above).

CENTRE FOR ACCESSIBILITY

UBC is committed to equal opportunity in education for all students including those with documented physical or learning disabilities. If you believe you fall in this category, please visit the website for the Centre for Accessibility (<https://students.ubc.ca/about-student-services/centre-for-accessibility>) to take the necessary steps to ensure that you have every opportunity that you deserve to excel in your studies.

DIVERSITY AND INCLUSION

Similar to the broader UBC community, the Psychology Department—and this class—seeks to build a community where students feel included and are treated equitably. This class aims to be inclusive of gender identity, gender expression, sex, race, ethnicity, socioeconomic background, sexual orientation, political and religious affiliation, ability, health, and age (this is not an exhaustive list!).

Students, instructors, visitors, and readings may sometimes raise controversial and/or sensitive issues. Respectful and productive discussion is encouraged, and students should feel safe to explore ideas without fear of being judged. Our goal is not to always agree, but rather to disagree without being threatening or alienating. However, if a statement or behaviour is likely to offend others or make others feel alienated in any way, it should not be shared with the class (but can be shared with me after class or in office hours). If at any point you feel offended, threatened, or alienated by anything that happens in our class, please feel welcome to let me or a TA know. I (like many people) am always learning about diverse perspectives and identities. If at any point you feel as though I am failing to live up to an inclusive space in our course, I encourage you to let me or a TA know.

ACADEMIC INTEGRITY

We are all—students, professors, TAs—members of the academic community. In this community, there are ethical standards for how we share and produce knowledge. These standards of academic integrity hold that we produce our own contributions (i.e., we don't copy or buy papers, we don't cheat on exams) and we don't take credit for someone else's work (i.e., we include citations and references).

Students are expected to comply with all university regulations regarding academic integrity; including plagiarism, cheating, and submitting your own work more than once. Policy guidelines can be found at: <http://vpacademic.ubc.ca/integrity/ubc-regulation-on-plagiarism/>

CITING VS. PLAGIARISM

Plagiarism is defined as “where an individual submits or presents the oral or written work of another person as his or her own.” In academic work, it is crucial that you acknowledge where ideas come from through citing those sources. If you are ever unsure of whether to cite, it is best to err with caution and cite a source! It is very unlikely to ever be penalized for over-citing, while under-citing may be a significant error. Unless a statement can be thought of as common knowledge, spend time thinking about the source of that information and how best to cite.

In Psychology, we use APA citation style to indicate sources. For guides to APA visit:

- <https://guides.library.ubc.ca/apacitationstyle>
- https://owl.purdue.edu/owl/research_and_citation/apa_style/apa_style_introduction.html

In writing within Psychology, direct quotations from sources are discouraged. Instead, you should try to paraphrase ideas into your own words, while citing the original source of those ideas. If you have questions on citing or what may constitute plagiarism, please discuss with us before any assessment is begun.

PSYCHOLOGY DEPARTMENT'S POSITION ON ACADEMIC MISCONDUCT

Cheating, plagiarism, and other forms of academic misconduct are very serious concerns of the University, and the Department of Psychology has taken steps to alleviate them. In the first place, the Department has implemented software that can reliably detect cheating on multiple-choice exams by analyzing the patterns of students' responses. In addition, the Department subscribes to TurnItIn – a service designed to detect and deter plagiarism. All materials (term papers, lab reports, etc.) that students submit for grading will be scanned and compared to over 4.5 billion pages of content located on the Internet or in TurnItIn's own proprietary databases. The results of these comparisons are compiled into customized "Originality Reports" containing several sensitive measures of plagiarism; instructors receive copies of these reports for every student in their class.

In all cases of suspected academic misconduct, the parties involved will be pursued to the fullest extent dictated by the guidelines of the University. Strong evidence of cheating or plagiarism may result in a zero credit for the work in question. According to the University Act (section 61), the President of UBC has the right to impose harsher penalties including (but not limited to) a failing grade for the course, suspension from the University, cancellation of scholarships, or a notation added to the student's transcript.

All graded work in this course, unless otherwise specified, is to be original work done independently by individuals. If you have any questions as to whether or not what you are doing is even a borderline case of academic misconduct, please consult your instructor. For details on pertinent University policies and procedures, please see Chapter 5 in the UBC Calendar (<http://students.ubc.ca/calendar>) and read the University's Policy 69 (available at: <http://www.universitycounsel.ubc.ca/policies/policy69.html>).

UBC VALUES STATEMENT

UBC provides resources to support student learning and to maintain healthy lifestyles but recognizes that sometimes crises arise and so there are additional resources to access including those for survivors of sexual violence. UBC values respect for the person and ideas of all members of the academic community. Harassment and discrimination are not tolerated nor is suppression of academic freedom. UBC provides appropriate accommodation for students with disabilities and for religious and cultural observances. UBC values academic honesty and students are expected to acknowledge the ideas generated by others and to uphold the highest academic standards in all of their actions. Details of the policies and how to access support are available here (<https://senate.ubc.ca/policiesresources-support-student-success>).

We participate in the Early Alert program, which helps us support students who are facing difficulties that are interfering with their education, their wellness or both. For answers to frequently asked questions regarding the early alert program, please visit blog.students.ubc.ca/earlyalert/information-for-students/students-frequently-asked-questions/.

LEARNING AND WELLNESS RESOURCES

Your well-being is more important than anything going on in this course! I fully understand that you may have other priorities—your self-care, your families, your work, etc. If you find that you are struggling to balance these priorities with the demands of this class, do reach out. I will try to provide resources and discuss options.

If you are dealing with an emergency during this course (medical, emotional, family, etc.), try to take care of yourself first. Contact us when you are able. We will then work with you to figure out the best course of action—along with likely having you discuss with your faculty's advising office.

You may find the following UBC resources helpful:

Academic Advising

UBC's Students Services' [Academic Advisors](#) can provide guidance on your academic progress, degree requirements, program planning and more. They can also help you apply for in-term [academic concessions](#) if you face extenuating circumstances that prevent you from completing work for your courses.

Writing Support

The [UBC Centre for Writing and Scholarly Communication](#) offers tutoring services and resources and has an amazing [collection of information and resources about writing](#).

THE UNIVERSITY OF BRITISH COLUMBIA

Department of Psychology

Faculty of Arts

UBC Learning Commons

[UBC's Chapman Learning Commons](#) provides information about academic resources, from tutoring and workshops to study groups and online technology tools. It also offers resources on a variety of academic topics.

AMS Tutoring

The AMS, which is your UBC student society, **offers [free group tutoring](#) covering a variety of courses.**

Health and Wellbeing

It's important to take care of your physical, mental, and emotional health as you navigate university life. Be sure to check out the resources available through the [Wellness Centre](#), [Student Counselling Services](#), and other health resources posted on the [health section of the Student Services website](#).

If you or someone you know is in crisis: <https://students.ubc.ca/health/crisis-support>

ACKNOWLEDGEMENT

UBC's Point Grey Campus is located on the traditional, ancestral, and unceded territory of the xwməθkwəyəm (Musqueam) people. The land it is situated on has always been a place of learning for the Musqueam people, who for millennia have passed on in their culture, history, and traditions from one generation to the next on this site. I would also like to acknowledge that you are joining us during this course from many places, near and far, and acknowledge the traditional owners and caretakers of those lands.
